EDUCATION

Bachelors, CIS

University of Wisconsin - Stevens Point

1994 – 1999

CORE SKILLS

- React
- TypeScript
- Next.js
- JavaScript
- HTML
- CSS (Tailwind, SASS, etc)
- Node.js
- REST
- Cypress
- Playwright
- Express
- Jest
- Webpack
- Storybook
- Enzyme
- Design Systems

PROGRAMS & SERVICES

- Jira
- Confluence
- Figma
- Optimizely
- LaunchDarkly
- Applitoools
- Sentry
- Adobe CS
- Git
- GitLab
- NPM
- Yarn
- REST/SOAP
- Agile
- Windows, Mac, Linux

ADDITIONAL

- AWS
- GCP
- OpenAI SDK
- Contentful
- Firebase
- GraphQL
- MySQL
- PHP
- Python
- Supabase

AI TOOLING

- OpenAI SDK
- Structured LLM Output Pipelines
- AI Workflow Automation
- Claude Code

RELEVANT WORK EXPERIENCE

STAFF FRONTEND ENGINEER / U.S. Engineering Manager 2022 – 2025

WGAC (Who Gives a Crap) | Remote

Ecommerce platform built on Shopify with a focus on performance and scalability.

- Led frontend architecture across a Shopify platform using Liquid and modern JS
- Replaced custom systems with native Shopify solutions, saving \$100k+ annually
- Built Shopify storefront features using Liquid and modern JS
- Contributed directly to frontend implementation across core storefront features
- Improved delivery cadence by shifting toward more iterative development practices
- Collaborate across teams to align frontend architecture and unblock delivery

SENIOR UI ENGINEER 2020 – 2022

RxSaver/GoodRx | Austin, TX

Healthcare platform focused on prescription pricing.

- Built and maintained React/Next.js applications for high-traffic user flows
- Upgraded Next.js, Webpack, and Node, improving build performance and DX
- Integrated Osano consent tooling and resolved vendor-side technical issues
- Reduced costs by ~\$50k/month by migrating to Google Fonts
- Contributed to a shared design system and documentation site

SENIOR UI ENGINEER 2018 – 2019

RetailMeNot | Austin, TX

Experimental product team focused on rapid prototyping and revenue opportunities.

- Developed React-based UI features and API-driven experiences
- Built a multi-API deals aggregation system to surface lowest-price offers
- Refactored Best Buy API integration used by mobile apps, saving ~\$250k annually
- Led development of the design system documentation site, improving adoption

SENIOR FRONT END DEVELOPER 2016– 2017

NextWorks | Austin, TX

SPA product for embeddable web experiences.

- Built SPA applications and internal tools for enterprise clients
- Developed APIs and automation tools, saving ~\$50k annually
- Helped evolve internal products into scalable, customer-facing SaaS offerings

SOFTWARE ENGINEER 2012– 2016

Spredfast/Mass Relevance | Austin, TX

Real-time social data platform.

- Built real-time, data-driven web apps using high-volume social media streams
- Developed interactive visualizations for brands like NBA, NFL, and IBM
- Delivered responsive, cross-browser experiences for large-scale campaigns.

OTHER WORK EXPERIENCE

SOFTWARE ENGINEER 2010 – 2012

CTC (Computer Technology Consultants) | Washington DC

Built CMS templates and API integrations for U.S. State Department sites.

CREATIVE DIRECTOR 2005 – 2009

Plain Black | Remote

Led frontend and design for a CMS platform, building and maintaining hundreds of templates.
